SUBJECT INDEX

Adipose tissue capillary blood flow in relation to fatness in sheep 352
Aetiology of food-related oral lesions in chickens 219
Alterations in piglet small intestinal structure at weaning 32
Anticoagulants, Stability of prothrombin times in sheep dosed with natural and synthetic 141
Anulus fibrosus in normal canine caudal intervertebral discs, Histochemical study of 18
Atracurium and suxamethonium in the dog, Interaction between 299
Attempts to modify changes in the piglet small intestine after weaning 313

B lymphocytes differentiation and suppressor activity by T lymphocytes derived from neonatal and sucking piglets 400
Babesis bigemina in the gut of *Boophilus microplus*, Effect of different methods of maintenance on the development and morphology of 94
Babesia divergens in splenectomised calves, Effects of rapid passage in the gerbil (*Meriones unguiculatus*) on the course of infection of the bovine piroplasm 285
Biopsy needle, Renal biopsy in the normal cat: development of a modified disposable 246
Biotin supplementation of a barley-wheat diet on restoration of healthy feet, legs and skin of biotin-deficient sows, Effect of 212
Blood loss in goats (*Capra hircus*), Changes in red cell volume distribution after acute 322
Bluetongue virus types, Serial inoculation of sheep with two 386
Boophilus microplus, Effect of different methods of maintenance on the development and morphology of *Babesia bigemina* in the gut of 94
Bos indicus, Genetic characterisation of the mithun (*Bos frontalis*) and studies of spermatogenesis, blood groups and haemoglobins of its hybrids with 8
Bolutism type C, Electrophysiological evidence of peripheral nerve dysfunction in six dogs with 372
Bronchial calibre of cattle during xylazine/halothane anaesthesia, Effects of posture and intraruminal pressure on 166
Brush border enzyme activities in the piglet small intestine, Influence of creep feeding and weaning on 24
Bursal disease, Haematological values and changes in blood chemistry in chickens with infectious 8

Calculi, Crystalline composition of equine urinary 288
Can *Encephalitizoon cuniculi* cross the placenta? 138
Canine parvovirus: development of immunofluorescence and immunoperoxidase techniques 201
Capillary blood flow in relation to fatness in sheep, Adipose tissue 352
Capillary blood flow in sheep, Effect of fasting on 357
Caprine arthritis encephalitis virus affords greater sensitivity than the p28 in immunodiffusion serology, The gp135 of 157
Capripoxvirus, Insect transmission of 255
Carbenicillin in two species of tortoise (*Testudo graeca* and *T hermanni*), Use of 413
Carbon dioxide exposure, Respiratory responses of the domestic fowl to low level 99
Caudal intervertebral discs, Histochemical study of the anulus fibrosus in normal canine 18
Changes in immunoglobulin levels in whey during experimental *Streptococcus agalactiae* mastitis 183
Changes in red cell volume distribution after acute blood loss in goats (*Capra hircus*) 322
Chloramphenicol in goats, Effect of short term starvation on dispositiion kinetics of 382
Clinical pathology of *Schistosoma bovis* infection in goats 44
Comparison of single strains of four serotypes of *Pasteurella haemolytica* biotype A in experimental pneumonia of sheep 136
Copper in the liver and spleen of veal calves in relation to the concentration of iron in the diet, Distribution of iron and 209
Creep feeding and weaning on brush border enzyme activities in the piglet small intestine, Influence of 24
Crystalline composition of equine urinary calculi 288

Detection of avian encephalomyelitis virus 118
Dexamethasone on binding characteristics of canine erythrocyte insulin receptors, Effect of fasting and 347
Dichlorvos toxicosis in calves, Pulmonary function changes induced by experimental 318
Differences in blood supply to the cerebral cortex between sheep and calves during slaughter 252
Distribution of iron and copper in the liver and spleen of veal calves in relation to the concentration of iron in the diet 209
Distribution of T and B lymphocytes in jejunal and ileocaecal Peyer's patches of lambs 105

Effect of biotin supplementation of a barley-wheat diet on restoration of healthy feet, legs and skin of biotin-deficient sows 212
Effect of concurrent infection with *Ostertagia circumcincta* and *Trichostrongylus vitrinus* on the performance of lambs 241
Effect of cool storage of faecal samples containing *Haemonchus contortus* eggs on the results of an in vitro egg development assay to test anthelmintic resistance 4
Effect of different methods of maintenance on the development and morphology of *Babesia bigemina* in the gut of *Boophilus microplus* 94
Effect of fasting and dexamethasone on binding characteristics of canine erythrocyte insulin receptors 347
Effect of fasting on capillary blood flow in sheep 357
Effect of induced hypomagnesaemia on the toxicity of imidocarb in calves 264
Effect of short term starvation on disposition kinetics of chloramphenicol in goats 382
Effect of tick-borne fever on the disposition of sulphadimidine and its metabolites in the plasma of goats 377
Effect of unilateral weight-bearing on pelvic limb development in broiler fowls; morphological and radiological findings 393
Effects of flunixin meglumine, phenylbutazone and a selective thromboxane synthetase inhibitor (UK-38,485) on thromboxane and prostacyclin production in healthy horses 152
Effects of posture and intraruminal pressure on the bronchial calibre of cattle during xylazine/halothane anaesthesia 166
Effects of rapid passage in the gerbil (*Meriones unguiculatus*) on the course of infection of the bovine piroplasm *Babesia divergens* in splenectomised calves 285
Effects of warfarin on blood rheology in navicular disease 308
Eimeria tenella: stability of resistance to halofuginone, decoquinate and arprinocid in the chicken 139
Electroneurographic examination of the ulnar and radial nerves in the dog: reference values, biological variation and reproducibility 189
Electrophysiological evaluation of traumatic forelimb paralysis of the dog 144
Electrophysiological evidence of peripheral nerve dysfunction in six dogs with botulism type C 372
Embedding of skeletal tissue in plastic for vascular and histological study to demonstrate delayed endochondral ossification in Leghorn type fowl 236
Emigration of polymorphonuclear leucocytes into the intestinal lumen of the neonatal piglet in response to challenge with K88-positive *Escherichia coli* 128
Encephalitizoon cuniculi cross the placenta? Can 138
Encephalomyelitis virus, Detection of avian 118
Endochondral ossification in Leghorn type fowl, Embedding of skeletal tissue in plastic for vascular and histological study to demonstrate delayed 236
Equine metritis organism (*Taylorella equigenitalis*), Specific antibody in the equine genital tract following local immunisation and challenge infection with contagious 54
Erythrocyte insulin receptors, Effect of fasting and dexamethasone on binding characteristics of canine 347
Escherichia coli, Emigration of polymorphonuclear leucocytes into the intestinal lumen of the neonatal piglet in response to challenge with K88-positive 128
Experimental investigation of the cardiovascular and respiratory effects of increasing concentrations of isoflurane in the dog 89

Faecal samples containing *Haemonchus contortus* eggs on the results of an in vitro egg development assay to test anthelmintic resistance, Effect of cool storage of 4
Fascioliasis in goats, Some biochemical indices in naturally occurring 276
Flunixin meglumine, phenylbutazone and a selective thromboxane synthetase inhibitor (UK-38,485) on thromboxane and prostacyclin production in healthy horses, Effects of 152
Foot-and-mouth disease vaccination: a multifactorial study of the influence of antigen dose and potentially competitive immunogens on the response of cattle of different ages 303
Foot-and-mouth disease virus from African buffalo (*Syncerus caffer*) to cattle, Potential for the transmission of 278

Genetic characterisation of the mithun (*Bos frontalis*) and studies of spermatogenesis, blood groups and haemoglobins of its hybrids with *Bos indicus* 8
Gerbil (*Meriones unguiculatus*) on the course of infection of the bovine piroplasm *Babesia divergens* in splenectomised calves, Effects of rapid passage in the 285
Glutathione peroxidase in bovine mastitis, Prostaglandins and 361
gp135 of caprine arthritis encephalitis virus affords greater sensitivity than the p28 in immunodiffusion serology, The 157

Haematological values and changes in blood chemistry in chickens with infectious bursal disease 8
Haemonchus contortus eggs on the results of an in vitro egg development assay to test anthelmintic resistance, Effect of cool storage of faecal samples containing 4
Haemophili of the 'minor group' taxon for the gnotobiotic piglet, Lack of pathogenicity of 273
Histochemical study of the anulus fibrosus in normal canine caudal intervertebral discs 18
Histological assessment of puberty in dogs in the Zaria area of Northern Nigeria 281
Hypomagnesaemia on the toxicity of imidocarb in calves, Effect of induced 264

IBV, In ovo interference of embryo non-lethal avian infectious bronchitis viruses (IBV) with velogenic Newcastle disease virus and embryo adapted 1
Imidocarb in calves, Effect of induced hypomagnesaemia on the toxicity of 264
Immediate type sensitivity in dogs induced by storage mites 123
Immunodiffusion serology, The gp135 of caprine arthritis encephalitis virus affords greater sensitivity than the p28 in 157
Immunofluorescence, A micromethod for measuring swine fever antibody by neutralisation and 408

Immunofluorescence and immunoperoxidase techniques, Canine parvovirus: development of 201
Immunoglobulin levels in whey during experimental *Streptococcus agalactiae* mastitis, Changes in 183
Immunoperoxidase techniques, Canine parvovirus: development of immunofluorescence and 201
In ovo interference of embryo non-lethal avian infectious bronchitis viruses (IBV) with velogenic Newcastle disease virus and embryo adapted IBV 1
Induction of relative growth changes in the musculoskeletal system of the sheep by limb immobilisation 173
Influence of creep feeding and weaning on brush border enzyme activities in the piglet small intestine 24
Insect transmission of capripoxvirus 255
Interaction between atracurium and suxamethonium in the dog 299
Iron and copper in the liver and spleen of veal calves in relation to the concentration of iron in the diet, Distribution of 209
Isoflurane in the dog, Experimental investigation of the cardiovascular and respiratory effects of increasing concentrations of 89

K88-positive *Escherichia coli*, Emigration of polymorphonuclear leucocytes into the intestinal lumen of the neonatal piglet in response to challenge with 128

Lack of pathogenicity of haemophili of the 'minor group' taxon for the gnotobiotic piglet 273
Lanthanum through the intercellular spaces of the sebaceous gland, Passage of 48
Lice on weight gain and wool production, Propetamphos pour-on formulation for the control of lice on sheep: effect of 41
Lymphocyte blastogenesis in whole blood cultures for neonatal calves, Simple technique for examining 161

Mastitis, Prostaglandins and glutathione peroxidase in bovine 361
Meriones unguiculatus (gerbil) on the course of infection of the bovine piroplasm *Babesia divergens* in splenectomised calves, Effects of rapid passage in the 285
Metabolism and growth in housed calves given a morantel sustained release bolus and exposed to natural trichostrongyle infection 65
Micromethod for measuring swine fever antibody by neutralisation and immunofluoresence, A 408
Mithun (*Bos frontalis*) and studies of spermatogenesis, blood groups and haemoglobins of its hybrids with *Bos indicus*, Genetic characterisation of 8
Morphometric study of the bovine renal glomerulus, A 271
Musculoskeletal system of the sheep by limb immobilisation, Induction of relative growth changes in the 173

Navicular disease, Effects of warfarin on blood rheology in 308
Needle biopsy, Renal biopsy in the normal cat: examination of the effects of repeated 112
Newcastle disease virus and embryo adapted IBV, In ovo interference of embryo non-lethal avian infectious bronchitis viruses (IBV) with velogenic 1

Oral lesions in chickens, Aetiology of food-related 219
Ostertagia circumcincta and *Trichostrongylus vitrinus* on the performance of lambs, Effect of concurrent infection with 241
Ostertagia ostertagi in calves, Response to transplanted adult 367
Ovine enzootic abortion: experimental studies of immune responses 8

Paralysis of the dog, Electrophysiological evaluation of traumatic forelimb 144
Passage of lanthanum through the intercellular spaces of the sebaceous gland 48
Pasteurella haemolytica biotype A in experimental pneumonia of sheep, Comparison of single strains of four serotypes of 136
Pelvic limb development in broiler fowls: morphological and radiological findings, Effect of unilateral weight-bearing on 393
Peyer's patches of lambs, Distribution of T and B lymphocytes in jejunal and ileocaecal 105
Phagocytic activity of macrophages of rainbow trout against *Vibrio anguillarum* and the opsonising effect of antibody and complement 328
Phenylbutazone and a selective thromboxane synthetase inhibitor (UK-38,485) on thromboxane and prostacyclin production in healthy horses, Effects of flunixin meglumine 152
Pig slaughtering procedures: time to loss of brain responsiveness after exsanguination of cardiac arrest 148
Plasma hormone concentrations in newborn Scottish Blackface lambs during basal and summit metabolism 339
Polymorphonuclear leucocytes into the intestinal lumen of the neonatal piglet in response to challenge with K88-positive *Escherichia coli*, Emigration of 128
Potential for the transmission of foot-and-mouth disease virus from African buffalo (*Syncerus caffer*) to cattle 278
Production, Parasitological and carcase evaluation studies in steers exposed to trichostrongyle infection and treated with a morantel bolus or fenbendazole in two consecutive grazing seasons 76
Propetamphos pour-on formulation for the control of lice on sheep: effect of lice on weight gain and wool production 41
Prostaglandins and glutathione peroxidase in bovine mastitis 361
Prothrombin times in sheep dosed with natural and synthetic anticoagulants, Stability of 141
Proximal femur in the domestic fowl, Vascular pattern of the developing 231
Puberty in dogs in the Zaria area of Northern Nigeria, Histological assessment of 281
Pulmonary function changes induced by experimental dichlorvos toxicosis in calves 318
Pulmonary haemorrhage in racing quarter horses, Sex variation in the prevalence of exercise-induced 406

Renal biopsy in the normal cat: development of a modified disposable biopsy needle 246

Renal biopsy in the normal cat: examination of the effects of repeated needle biopsy 112
Renal glomerulus, A morphometric study of the bovine 271
Respiratory function of the domestic fowl, Variability in 292
Respiratory responses of the domestic fowl to low level carbon dioxide exposure 99
Response to transplanted adult *Ostertagia ostertagi* in calves 367

Schistosoma bovis infection in goats, Clinical pathology of 44
Seasonal variations in haematological data from Mediterranean tortoises (*Testudo graeca* and *Testudo hermanni*) in captivity 225
Sebaceous gland, Passage of lanthanum through the intercellular spaces of 48
Serial inoculation of sheep with two bluetongue virus types 386
Serum antibody levels to *Taenia saginata* in cattle grazed on Scottish pastures 344
Sex variation in the prevalence of exercise-induced pulmonary haemorrhage in racing quarter horses 406
Simple technique for examining lymphocyte blastogenesis in whole blood cultures for neonatal calves 161
Skeletal tissue in plastic for vascular and histological study to demonstrate delayed endochondral ossification in Leghorn type fowl, Embedding of 236
Slaughter, Differences in blood supply to the cerebral cortex between sheep and calves during 252
Slaughtering procedures, Pig: time to loss of brain responsiveness after exsanguination of cardiac arrest 148
Small intestinal structure at weaning, Alterations in piglet 32
Small intestine after weaning, Attempts to modify changes in the piglet 313
Small intestine, Influence of creep feeding and weaning on brush border enzyme activities in the piglet 24
Some biochemical indices in naturally occurring fascioliasis in goats 276
Specific antibody in the equine genital tract following local immunisation and challenge infection with contagious equine metritis organism (*Taylorella equigenitalis*) 54
Spermatogenesis, blood groups and haemoglobins of its hybrids wth *Bos indicus*, Genetic characterisation of the mithun (*Bos frontalis*) and studies of 8
Spread of bovine syncytial virus in a dairy herd over a two year period 259
Stability of prothrombin times in sheep dosed with natural and synthetic anticoagulants 141
Storage mites, Immediate type sensitivity in dogs induced by 123
Streptococcus agalactiae mastitis, Changes in immunoglobulin levels in whey during experimental 183
Sulphadimidine and its metabolites in the plasma of goats, Effect of tick-borne fever on the disposition of 377
Suxamethonium in the dog, Interaction between atracurium and 299
Swine fever antibody by neutralisation and immunofluorescence, A micromethod for measuring 408
Syncerus caffer (African buffalo) to cattle, Potential for the transmission of foot-and-mouth disease virus from 278
Syncytial virus in a dairy herd over a two year period, Spread of bovine 259

T and B lymphocytes in jejunal and ileocaecal Peyer's patches of lambs, Distribution of 105
T lymphocytes derived from neonatal and sucking piglets, B lymphocytes differentiation and suppressor activity by 400
Taenia saginata in cattle grazed on Scottish pastures, Serum antibody levels to 344
Taylorella equigenitalis (contagious equine metritis organism), Specific antibody in the equine genital tract following local immunisation and challenge infection with 54
Tendon lesions in broiler fowls 333
Theileria orientalis occurs in Central Africa 197
Thromboxane and prostacyclin production in healthy horses, Effects of flunixin meglumine, phenylbutazone and a selective thromboxane synthetase inhibitor (UK-38,485) on 152
Tortoise (*Testudo graeca* and *T hermanni*), Use of carbenicillin in two species of 413
Tortoises (*Testudo graeca* and *Testudo hermanni*) in captivity, Seasonal variations in haematological data from Mediterranean 225
Trichostrongyle infection and treated with a morantel bolus or fenbendazole in two consecutive grazing seasons, Production, parasitological and carcase evaluation studies in steers exposed to 76
Trichostrongyle infection, Metabolism and growth in housed calves given a morantel sustained release bolus and exposed to natural 65
Trichostrongylus vitrinus on the performance of lambs, Effect of concurrent infection with *Ostertagia circumcincta* and 241
Trypanosoma congolense, Two enzymically distinct stocks of 411
Two enzymically distinct stocks of *Trypanosoma congolense* 411

Use of carbenicillin in two species of tortoise (*Testudo graeca* and *T hermanni*) 413

Variability in respiratory function of the domestic fowl 292
Vascular pattern of the developing proximal femur in the domestic fowl 231
Vibrio anguillarum and the opsonising effect of antibody and complement, Phagocytic activity of macrophages of rainbow trout against 328

Warfarin on blood rheology in navicular disease, Effects of 308
Weaning on brush border enzyme activities in the piglet small intestine, Influence of creep feeding and 24

Xylazine/halothane anaesthesia, Effects of posture and intraruminal pressure on the bronchial calibre of cattle during 166
